

# CPP FIDELITY COMPASS: CLOSING PHASE

## PROCEDURAL

- What are the procedures you would want to follow for this ending?
- What are the challenges to following these procedures?
- What rituals or activities might you and the family engage in to honor this ending?

## REFLECTIVE PRACTICE

- Why are you ending treatment?
- How do you feel about this ending and endings in general?
- How might your emotions and experience affect the way you close treatment?

## EMOTIONAL PROCESS

- What emotions might different family members have in response to ending?
- How are your interventions attuned to their emotional reactions?

## DYADIC RELATIONAL

- What might be the impact of ending for the child and the caregiver?
- How might you navigate family members having different responses to ending?
- How do your interventions help the caregiver guide the child through this transition and beyond?

## TRAUMA FRAMEWORK

- What is the child and caregiver's history of separation and loss?
  - How are goodbyes a possible trauma or loss reminder?
  - How might this affect the way they respond to you or to each other as you close?
- How have you planned for this?

## CONTENT

Reflect on the CPP treatment objectives.

- What progress has been made since the family began treatment?
- What contributed to positive change?
  - How do you and the family understand this?
- What are your closing recommendations to support change?
